

ING Quintaflex

403(b), Roth 403(b), Group 457 for Texas

SPECIAL FEATURES

ING Quintaflex is a flexible premium deferred annuity featuring low minimum premium requirements, an Interest Rate Bonus for the first 12 months on every premium payment received, and a variety of withdrawal options.

The Interest Rate Bonus is an additional rate of interest above the base or standard rate that would otherwise be credited to each premium payment received into the contract. ReliaStar Life Insurance Company reserves the right to change or discontinue the amount of the bonus at its discretion.

While in effect, the Interest Rate Bonus is credited to every premium payment received, not just those received during the first year of the contract, and it is credited for the first 12 months each particular premium payment is in the contract.

Withdrawal Charges

(see table of withdrawal charge percentages below)

Withdrawal Charge Percentages

Percent of each Premium (not Accumulation)

Withdrawals are taken from your earliest premiums, then your later premiums, and finally your interest. Withdrawal charges are assessed based on the age of the premium(s) used to satisfy the withdrawal. Loans and withdrawals will reduce the cash values and death benefits and may have tax implications.

Number of Years Since Receipt of Premium	<1	<2	<3	<4	<5	5+
% of Premium Charge	7	6	5	4	3	0

In any circumstance, you have no withdrawal charge after the tenth contract year.

Early withdrawals and other distributions of taxable amounts from any plan may be subject to income taxes and/or a surrender charge. For 403(b) and Roth 403(b) plans and IRAs, distributions taken before age 59½ may also be subject to the IRS 10% premature distribution penalty. The Internal Revenue Code generally prohibits withdrawals of 403(b) salary reduction contributions and earnings on such contributions prior to death, disability, age 59½, severance of employment, or financial hardship. (The amount available for hardship is limited to the lesser of the amount necessary to relieve the hardship, or the account value as of 12/31/1988 plus the amount of any salary reduction contributions made after 12/31/1988 (exclusive of any earnings). Amounts held as of 12/31/1988 are "grandfathered" and are not subject to these withdrawal restrictions. Amounts held under a 457 plan may only be distributed in accordance with the terms of the plan and the Internal Revenue Code. Consult your tax attorney or qualified tax professional for details.

You must qualify under IRS rules to withdraw 457 funds.

If you participate in a 457 plan sponsored by a state or local government, all amounts held under the Contract, and any amounts distributed, are for the exclusive benefit of the Plan participants and their beneficiaries. If you participate in a 457 plan sponsored by a tax-exempt entity, the Contract Owner is entitled to all amounts held under the Contract. Availability

of amounts contributed to the Contract are subject to the terms of the Internal Revenue Code (IRC) Section 457 Plan document and IRC Section 457.

Roth 403(b)

If offered by your employer, a Roth 403(b) allows you to make after-tax contributions to the Roth 403(b) under your employer's 403(b) program. Distributions from the Roth 403(b) will be tax free for federal income tax purposes if they are Qualified Distributions.

To be a Qualified Distribution, the following criteria must be met:

- 1) The funds must be held for a 5-year holding period, measured from the earlier of (A) the first year that contributions were made on your behalf to any Roth 403(b) account in your employer's plan, or (B) if a direct rollover contribution is made from another Roth 403(b) to the Roth 403(b) of your employer's plan, the first year contributions were made in the account from which the direct rollover originated, if earlier, and
- 2) The distribution must be due to attainment of age 59½, death or disability.

Distributed earnings from the Roth 403(b) before the Qualified Distribution provisions are satisfied are subject to taxation.

Other Distribution Options

- 1) **Systematic Withdrawals**
- 2) **Required Minimum Distribution (RMD)**, Planned Withdrawals

These features allow the policyholder access to policy funds at retirement without annuitizing.

RMD is a payout based on your life expectancy or the combined life expectancy of you and a beneficiary that is designed to meet the Required Minimum Distributions. Generally, RMDs for 403(b), Roth 403(b), and 457(b) plans must begin by April 1st of the year following the later of the year in which you turn age 70½ or retire. RMD payouts are recalculated annually based on your life expectancy (ies). Based upon the accuracy of the data provided to

ReliaStar Life Insurance Company, the calculation of your RMD amount is guaranteed by the Company to comply with IRS guidelines.

Important Notes

The tax-deferred feature of an annuity should not be a factor in purchasing an annuity in a tax-qualified plan. Tax deferral is provided by the plan and the tax deferral of the annuity does not provide any additional benefit. Individuals should only purchase an annuity in a qualified plan when its other benefits, such as lifetime income payment, family protection through death benefits, and/or guaranteed fees meet their current needs.

Guarantees are based on the financial strength and claims-paying ability of ReliaStar Life Insurance Company, who is solely responsible for all obligations under its policies.

Annuities have limitations. For costs and complete details of the coverage, call or write your insurance agent or the Company.
